

GRANT **FOR** CONGRESS

STRATEGIC PLAN

Campaign Plan

Matt Grant for Congress — Missouri's 2nd District

Campaign Plan

This plan translates the campaign's goals into a numbers-driven path to victory. Every section below should be revisited monthly and after every reporting deadline. Figures in brackets are placeholders to confirm with your data vendor and county clerk.

1. The Win Number

The win number is the number of votes required to win, derived from expected turnout — not from registration totals.

Input	Value	Source
Expected turnout (this election type)	[TURNOUT]	County clerk + past 3 comparable elections
Win threshold	50% + 1 (or top-two for primary)	Election rules
Win number	[WIN #]	Turnout × threshold
Cushion target (+5%)	[WIN # × 1.05]	Buffer for error

Rule of thumb: Build your entire voter-contact program backward from the win number, not forward from your volunteer list.

2. Vote Goal Math

Bucket	Definition	Target votes
Base	Reliable supporters	[#]
Persuasion	Undecided / swing	[#]
Turnout (GOTV)	Supporters who vote irregularly	[#]
Total		= Win number + cushion

3. Strategic Pillars

- 1. **A disciplined, repeated message** — lower costs, stronger schools, protect Social Security & Medicare.
- 2. **Direct voter contact at scale** — doors and phones are the highest-ROI persuasion channels.

3. **An earned-media engine** — a steady cadence of local press and a credible candidate story.

4. **A funded operation** — enough cash to execute the field and mail plan without scrambling.

4. Timeline & Phases

Phase	Window	Primary objective
Build	Now → 120 days out	Infrastructure, money, list, volunteers
Persuade	120 → 30 days out	ID + persuade swing voters
Mobilize (GOTV)	Final 30 days	Turn out IDed supporters
Report & close	Post-election	Final reports, thank-yous, debt retirement

5. Budget Frame

Category	Target % of budget
Voter contact (mail, digital, doors)	50–60%
Staff / consultants	15–25%
Fundraising costs	5–10%
Compliance / admin / overhead	5–10%
Reserve	5%

6. Key Metrics Dashboard (update weekly)

- Cash on hand vs. burn rate
- Voter IDs collected vs. goal
- Volunteer shifts filled vs. needed
- Donor count and average gift
- Earned-media hits

7. Risks & Contingencies

Risk	Mitigation
Fundraising shortfall	Tiered budget; cut paid media before field

Risk	Mitigation
Opposition attack	Pre-written rapid-response (see Crisis Plan)
Low volunteer turnout	Paid canvass backstop budgeted
Compliance miss	Calendar with 2-week lead alarms (see Compliance Calendar)
